ciations has decided to boycott the Alton road.

This board was revived in January last, when sixty-six of the roads between the Mississippi River and the seahoard met in this city and pledged themselves to boycott such roads as paid commissions.

Several of the western lines openly ignored the order, while nearly all the rest kept on paying commissions secretly.

The Chicago and Alton was the open violator. The board yesterday sent a declaration to the general manager of the Alton to the effect that on and after April 15, all tickets of all classes and baggage-checks sold and issued by that line will be declined. The only roads east of the Mississippi that refused to join in the boycott were the Ohio and Mississippi and the Columbus and Hocking Valley.

If all the roads carry out the boycott a multitude of law suits from ejected passengers may be looked for. No doubt the Alton will carry litocourt, but the board of rollings claims that it was sure of its stand before it declared war. It claims the sanction of the Interstate Commerce Commission as to boycotts.

Loxpon, April 8.-A Vienna dispatch says that the Austrian Government, not eing reassured by Russia's denial of unfriendly designs, has already concentrated large bodies of troops at Tarnopol and Prody to watch the Galician frontier. The Tenth Corps, under Reinlander, has been reinforced by a portion of the First Corps, and Prince Windisch-Croetz of the Eleventh, is watching the frontier with a large force of cavalry. The Emperor will not, as has been expected, go thence to Alsace Lorraine. If he pays a visit to these provinces at all this year it will not be before September. It is to be noted, however, that twice as many officials have been detailed as during the Kaiser's shooting trip to Silesia as the Kaiser's shooting trip to Silesia as messengers to carry any information from the Chancelor to the Kaiser during the absence of the latter from the capital, state secrets not being intrusted either to the post or telegraph.
